

# Progress Report #2

## Work Date / Hours Log

Date	Number of Hours	Description of Work Done
Sept 27	4	Researched UI design tool and created UI wireframe
Sept 29	4.5	Overview foundations: merge feature/StatCard; wire KPI cards into Overview; add ChartCard wrapper; initial layout polish.
Sept 30	3	Add recharts & lucide-react; router scaffolding; implement DailySignupsLine & UploadTrendsBar; NotificationsList; mock data helpers; align layouts.
Oct 1	1.5	User Management: mock types/data, filters, table, detail drawer; drawer UX fixes (esc-to-close, backdrop); fix uploads routing/dep.
Oct 2	5	Uploads module full pass (table + modal) and merge to dev; Testimonials module: types + mock data, filters toolbar, card grid + actions, form modal, delete confirm + featured toggle; merge overview charts branch.
Oct 3	2	Biweekly meeting with project owner; Clarify next plans and deliverables
Oct 6	4	Onboarding Funnel analytics page (mock funnel + timelines); repo cleanup (remove unused/dup components).
Oct 7	1	Billing Page — created KPI strip, plan distribution pie chart, and failed-payments table
Oct 8	5	Usage page: filters, KPI strip, uploads/signups/active charts, quota list; Alerts Page — built flagged-queue moderation UI,; Commits: feat series on dev
Oct 9	1.5	Update Progress Report

## Front-End Implementation

**Dashboard Layout & Routing:** fully functional shell with sidebar navigation and topbar.

**Overview Page:** KPI cards, daily signups line chart, upload trends bar chart, and recent notifications.

**User Management:** filter/search bar, sortable user table, user detail drawer; dummy data integrated.

**Uploads Module:** list view of uploaded items with image preview, uploader email, and delete action.

**Testimonials:** admin CRUD UI with featured toggle and form modal.

**Onboarding Funnel (Analytics):** placeholder funnel chart, average time table, and activity timeline (mock PostHog data).

**Billing:** MRR/ARR KPIs, plan distribution pie, failed-payments (dunning) table + confirm modal.

**Usage Stats:** uploads/signups/active users charts, DAU/WAU/MAU KPIs, and quota list.

**Alerts:** moderation queue for flagged uploads, system alerts table, audit log, and bulk actions.

## Repo Check-in of Implementation Completed

Branch	Status	Summary
dev	Merged	Main integration branch; contains all merged features (Overview, User Mgmt, Uploads, Testimonials, Onboarding Funnel, Billing, Usage Stats, Alerts).
feature/StatCard	Merged	Base KPI cards for Overview page.
feature/overview-charts-notifications	Merged	Line + bar charts and notifications panel for Overview.
feature/user-management-ui	Merged	Filters, table, and drawer for User Management.
feature/uploads-page	Merged	Uploads list view + modal (UI mock)
(Subsequent modules committed directly on dev)	Completed	Testimonials, Onboarding Funnel, Billing, Usage Stats, Alerts — implemented and pushed to dev for faster integration.
