

# CSIS 4495\_050 – Progress Report 5

Student Name	First Wattanajungroj
Student ID	300371051
Course / Section	CSIS 4495_050
Project Title	Gluu Admin Dashboard

## Work Date / Hours Log

Date	Number of Hours	Description of Work Done
Nov 7, 2025	1.30	Meeting with Zane and team
Nov 10, 2025	2	Doing Video Present with team
Nov 10, 2025	2	Study how to put my testing website to the Github.
Nov 12, 2025	1	Creating some sample data for using in PostHog.
Nov 13, 2025	2	Searching how to import data into PostHog by using script.
Oct 18, 2025	2	Collect information for final submission.

## Description of Work Done

During Nov 7–20, 2025, I met with Zane and the team to align deliverables and the upcoming presentation, worked with teammates to produce a video presentation, and prepared my testing website for GitHub so others can review and run it. On analytics, I created small sample datasets and researched a scripted import path into PostHog to seed events and verify funnels before live traffic. Unfortunately, the sample data that I have created still cannot put it into PostHog Successfully. I also gathered materials needed for the final submission. Additionally, on Oct 18, 2025 (outside the reporting window), I collected information for the final submission package.

For my work, I have have the testing website on my own github here: [fwa051/Gluu PostHog-test: This is testing website for PostHog input of Gluu admin dashboard project.](#)
