Description of Work Done

From September 29 to October 8, 2025, I focused on PostHog integration and progress updates. On September 29, I spent two hours studying tutorials from the PostHog YouTube channel. On October 2, I joined class for one hour to share updates and then dedicated three hours to testing the integration of PostHog with our dashboard. On October 3, I met with Zane for one hour to report progress. On October 6, I continued learning for another hour with additional PostHog tutorials. Finally, on October 8, I spent two hours researching approaches for integrating PostHog with the frontend pages to refine our implementation.
